

H-ES1 - ELECTRICITY SAVER

H-ES1 Electricity-Saver is the latest electrical product developed to save electricity charges in the houses, shops and offices / commercial premises. On our daily use only 60% - 75% of electricity is utilised by our electrical appliances at optimum level and the rest is wasted. Thus resulting in consumers paying high electricity bill than actual and also shortens the lifespan of all the electrical appliances. With **H-ES1** Electricity Saver, it maintains stable electric supply with constant voltage to attain optimum electricity, which will prolong the lifespan of all the electrical appliances and thus reduces maintenance and replacement cost.

Just plug in **H-ES1** Electricity Saver and start saving electricity immediately. Save money every minute and every second.

H-ES1 Electricity Saver uses a state of the art electrical technology to actively monitor and silently improves the power frequency of the household / office or industrial appliances.

In addition, the intelligent technology optimises the voltage and current demands thus reducing the active power (kwh) and can achieve up to 30% savings on your electricity bill. It also acts as a voltage stabiliser by storing energy for up to 10 seconds and therefore supplies the load with constant voltage during momentary power surges. This in turn results in a longer lifespan of the electrical appliances.

Technical parameters

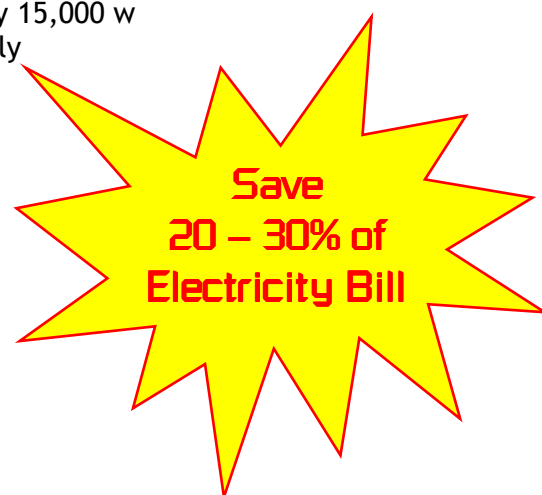

- ❖ Rated Voltage: 230 V AC / 50Hz
- ❖ Working Temperature: -15 °C to 60 °C
- ❖ Single Phase Use - One **H-ES1** Electricity Saver for every 15,000 w
- ❖ This device is not designed for heavy duty load or monthly consumption higher than 15,000 kwh.
- ❖ Net weight: 220 g.
- ❖ Dimensions (approx): 80mm (b) x 55mm (l) x 125mm (h)

Product Features

- ✓ Saves 20% to 30% of electricity
- ✓ Stabilises the supply voltage
- ✓ Reduces electrical overheating
- ✓ Improves efficiency and reduce power losses
- ✓ Maintenance free
- ✓ Environmental friendly
- ✓ Simple operation - Easy to use
- ✓ Suitable for houses, shops, offices / commercial premises, small industrial units, Restaurants, etc.

How to use: Plug **H-ES1** Electricity Saver into any socket.

“Saving energy means saving money - saving money means earning money”
