

DIGITAL TYRE PRESSURE GAUGE

For safer driving control, tyre pressure control is utmost necessary. Here is an economical product from HARIS that helps you check the tyre pressure anywhere any time.

Tyre Pressure Gauge comes with LCD display, backlit, making it easier to check the pressure even in dark. This is light in weight (70 gms). This light weight instrument is very handy, battery operated – has provision for measuring upto 100 psi and auto switch off if unused for 15 seconds. It helps to measure the pressure with 1% accuracy. It is very affordable and a must for every scooter, bike and car owner.

Features:

- Gives standard PSI (or Bar, Kg/cm², KPa) readings.
- Quick, simple to use and very accurate.
- Accurate tyre pressures improve fuel consumption.
- Lengthens tyre's tread life.
- Auto power off.
